Gerry – It was good to meet with you today.

Upon further reflection, you need to consider that the Crowley site (former Hough MGP) is under the jurisdiction of the USEPA. While I believe the physical soil work will be complete you need to discuss your plans with Tim Prendiville and his superiors to consider if and how they can allow you to move onto the site.

Only a small portion of the Centerpoint Point property is potentially impacted by the Crowley (former Hough MGP) and I understand that Centerpoint expects to send our access agreement back early next week. For either site, we still need to meet with ComEd regarding the placement of the lines and whether they should be relocated to a different place based on your barge loading plans.
